

Nada International School Newsletter

NOVEMBER 2023

EXECUTIVE PRINCIPAL'S MESSAGE

Dear Esteemed Parents,

We are delighted to share with you a recap of recent events and initiatives that have enriched the learning experience and fostered a vibrant school community at Nada International School.

Parent-Teacher Conferences (PTC)

Our recent Parent-Teacher Conference provided an invaluable opportunity for parents and teachers to connect, discuss student progress, and collaborate on strategies for continued success. The open dialogue and mutual commitment to academic excellence were evident throughout the PTC sessions.

Nada International School has received commendable ratings across various facets of education and child development. Our parents have completed a parent satisfaction survey. The parents believe that the school has made significant strides in enhancing a child's social skills, with 85% of parents noting considerable improvements in their child's social adeptness since enrollment. The school also maintains a safe haven free from bullying, with an 82% positive response rate from parents commending the school's swift and effective action against any bullying incidents. Additionally, the school has received an 81% satisfaction rate among parents for its ever-evolving curriculum and its commitment to efficient administration and seamless processes.

Maths Week

Maths Week brought a wave of excitement and engagement to our classrooms as students delved into the fascinating world of mathematics. A series of interactive activities, puzzles, and competitions sparked curiosity, encouraged creative problem-solving, and highlighted the real-world applications of mathematical concepts. The week was concluded by a Math Art Gallery and in the School Design Transformation Competition. The Math Relay, however, was the most exciting event where students have combined learning with sports in a very nice ending. Congratulations to the Red Team for winning the competition.

Girls Night

Mrs. Hana and our female teachers organized a special Girls' Night event for the female students in grades 6-12. The event provided a platform for female students to connect, share experiences, and celebrate their achievements. The festive atmosphere fostered a sense of joy and family and brought along a warm feeling of belonging.

Spelling Bee

The annual Spelling Bee showcased the impressive vocabulary skills of our students. The competition was a testament to their dedication to language learning and their ability to think critically under pressure. Please read the details in the coming few pages.

Field Trips

Our KG students embarked on a delightful journey to Toy Town, a wonderland of imagination and creativity. Upon arrival, their eyes sparkled with excitement as they were greeted by an enchanting array of toys, games, and interactive exhibits.

Our primary school students embarked on an exhilarating field trip to Jamboline, a premier leisure and entertainment destination. Upon arrival, they were greeted by a vibrant atmosphere, filled with music, laughter, and a sense of boundless possibilities.

These excursions broadened their horizons, fostered a sense of curiosity, and strengthened their connection to the world around them.

MOE Visit

Nada International School Celebrates International Day for Tolerance with MOE Delegation

In a spirit of harmony and inclusivity, Nada International School (NIS) recently celebrated the International Day for Tolerance with the esteemed presence of a delegation from the Ministry of Education (MOE). The event marked a significant occasion in our school's calendar, providing a platform to showcase our dedication to fostering a culture of tolerance and respect within our vibrant school community.

End-of-Term Assessments and Important Reminders

As the end of the term approaches, we would like to inform you that our end-of-term assessments will commence in Week 15, starting from Sunday, December 10, 2023. We understand that this period can be a busy time for students, and we encourage you to ensure that your child is completing all tasks promptly to prepare for the upcoming assessments.

Please note that our assessments will begin in Week 15, on Sunday, December 10, and conclude on December 21, 2023. (Please refer to the reverse side for the End of Term 1 Assessment timetable)

Important Changes to Early Dismissal

This year, we have implemented a significant change regarding early dismissal after the completion of assessments.

School will be closing early at 11:30 AM from Tuesday, December 12, to December 21, 2023. Please note that on Sunday and Monday, December 10 and 11, the school will conclude at the regular time.

Revision Activities and Regular Attendance

In Week 14, teachers will be conducting revision activities to assist students with any subject matter that they may require additional support in. We kindly request that all students attend school regularly during these important weeks to take full advantage of the revision opportunities provided.

Fee Payments

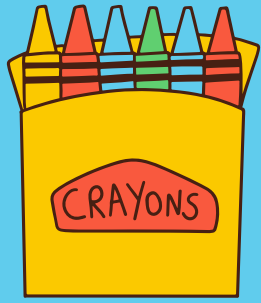

Please ensure that you have settled all outstanding school fees by December 14, 2023. Report cards will only be issued to parents whose fees have been paid in full.

Thank you for your cooperation and understanding as we prepare for the end of the term. We appreciate your partnership in ensuring your child's success.

زيارة مكتب التعليم الأهلي والأجنبي وإدارة التربية الفكرية لمدارس ندى العالمية

برنامج اليوم العالمي للتسامح

بناء على التعميم الصادر من معالي وزير التعليم بشأن تفعيل برنامج اليوم العالمي للتسامح , فقد تم تفعيله في مدرسة ندى العالمية يوم 1 جمادة الأول من عام 1445هـ الموافق 15/11/2023م بحضور كلا من مدير مكتب التعليم الأهلي والأجنبي ومدير إدارة التربية الفكرية ومشرفي ومشرفات الإدارتين الكرام .

وقد تم خلال الزيارة عرض فيديو قصير من اعداد طلاب وطالبات المدرسة عن التسامح , ومن ثم جوله على الأركان للدول والجنسيات المختلفة بالمدرسة وذلك للاستماع لشرح مبسط عن هذه الدول وكيف يكون التسامح بينهم .

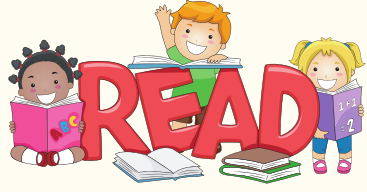

وقد تم الاستعراض من خلال عروض البوربوينت ومنشورات واستعراض بعض العادات الخاصة بهم وتحية الحضور بلغة دولهم . وهذه الفقرات من اعداد الطلاب والطالبات من المرحلة العليا . ثم تم الانتقال للمرحلة الابتدائية لحضور فقره من من اعداد وتدريب معلمي ومعلمات المرحلة وهي أنشودة عن التسامح .

وفي ختام الزيارة ألقى كلا من مدير إدارة التعليم الأهلي والأجنبي ومدير إدارة التربية الفكرية كلمة شكر لإدارة المدرسة وموظفيها وطلابها وطالباتها على ماتم استعراضه بالزيارة

Primary D.E.A.R Programme

Drop Everything And Read

There is something truly magical about spending time outside, under the open sky, with a good book in hand.

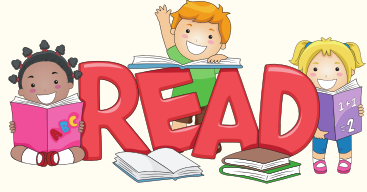

Encouraging young minds to get lost in the pages of a book while surrounded by the beauty of nature, is a gift that keeps on giving.

Not only does it promote literacy and a deep appreciation for literature, but it also instills a sense of wonder, curiosity, and connection to the world around us.

Safeguarding Our Students' Health: Regular Head-Lice Checks

Article by Mrs. Manal, NIS School Nurse

At Nada International School, we prioritize the health and well-being of our students. As part of our comprehensive Health and Safety Program, we conduct regular head-lice checks to ensure a lice-free environment that promotes optimal health and learning. These checks are conducted twice every term to proactively identify and address any potential head-lice infestations. Our trained staff discreetly and respectfully examines each student's hair, maintaining their privacy and dignity throughout the process. Head lice is a common social and health problem among all age groups, which can be developed by *Pediculus humanus capitis* as a human head louse.

Pediculosis is considered a contagious disease among school -children. Head lice is especially widespread among school-aged children. They are easiest to see at the nape of the neck and over the ears.

Spreading of lice is more commonly due to direct contact with the hair of infested people. Other common routes are reported such as clothing, objects, and personal belongings of infested persons. Untreated pediculosis can result in itching, hives, secondary infection, and repeated wounding of the head.

To prevent the spreading of pediculosis from infested people to society, their families, and schools, treatment and follow-up of head lice infestations are very important.

We encourage parents to continue these checks at home and to promptly inform the school nurse if they detect any signs of head lice. Early detection and treatment are essential for preventing the spread of head lice and ensuring the well-being of our students.

Our commitment to the health and safety of our students goes beyond head-lice checks. We also provide regular health education sessions, promote healthy habits, and maintain a clean and hygienic school environment.

Together, we can create a healthy and supportive learning environment where our students can thrive.

NIS MATH WEEK

MATHATHON RELAY RACE

During Math Week, our school hosted an exhilarating Mathathon Relay Race, bringing together students from all four student houses in a spirited competition. The event not only showcased the students' mathematical prowess but also fostered teamwork and a sense of camaraderie. Participants tackled a series of math challenges, solving problems collectively as they raced against the clock. It was a fantastic opportunity for students to apply their mathematical skills in a dynamic and collaborative setting, adding an exciting dimension to the celebration of math within our school community.

PAJAMA & CRAZY HAIR DAY

29 & 30 NOVEMBER 2023

Keeping Up with NIS Graduates!

By Media Committee

They spread their wings and fly away carrying in their hearts the beautiful memories of school days and the learning and skills they harvested to help them survive the strong winds of real life. And just like migrating birds, they always return home.

This month's letter came from Jordan, presenting Rafiq Salah, another NIS success story.

Hello there. This is Rafiq Salah and I used to be a student here at Nada for 8 years. I've seen a lot of teachers come and go from the school for better or for worse. I made a lot of memories here at the school and to say it helped shape me to what I have become is an understatement. Coming back to visit the school briefly was a huge wave of nostalgia and it made me glad to come back here again. Seeing Mr. Wajeeh, Shabbir and Hasan a couple of years after graduating made me feel grown-up. Unfortunately, I didn't see Mr. Zuko. Maybe next time. I am currently studying medicine at Yarmouk University in Jordan. I recently started my third year and it has been daunting to say the least, I think every department will be one way or another. I was very lost in my first month or two at the University and I think all of you will be until you get used to the surroundings. Some advice to share about university life is that you must manage your time efficiently. While that does apply to you currently in school, that applies twice as much when you start university. Another thing is that you must look up your university's online groups for your current year so that you would be up to date with all the news regarding your lectures and exams or if you want to ask questions to other students.

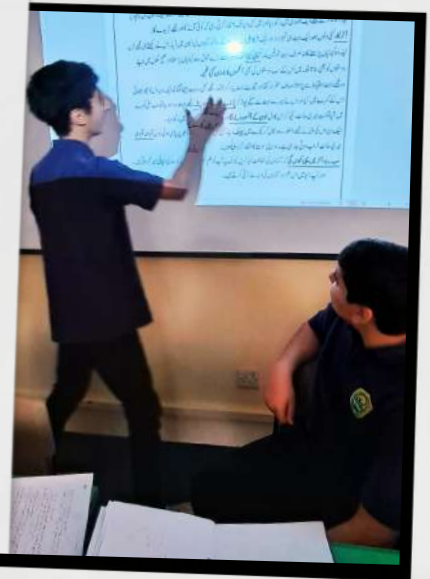

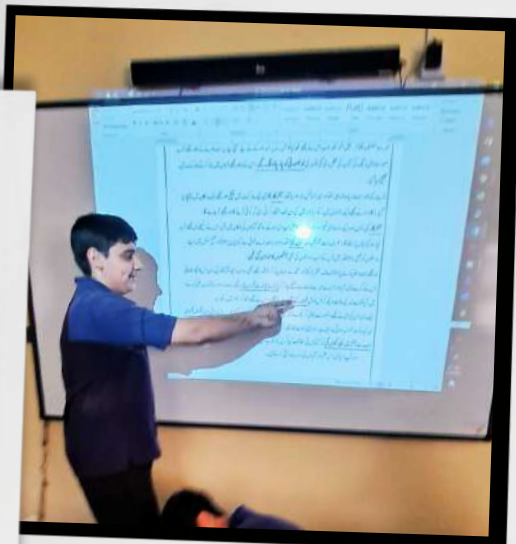

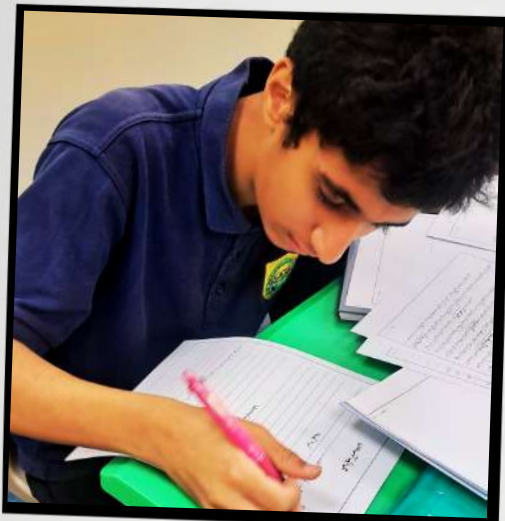

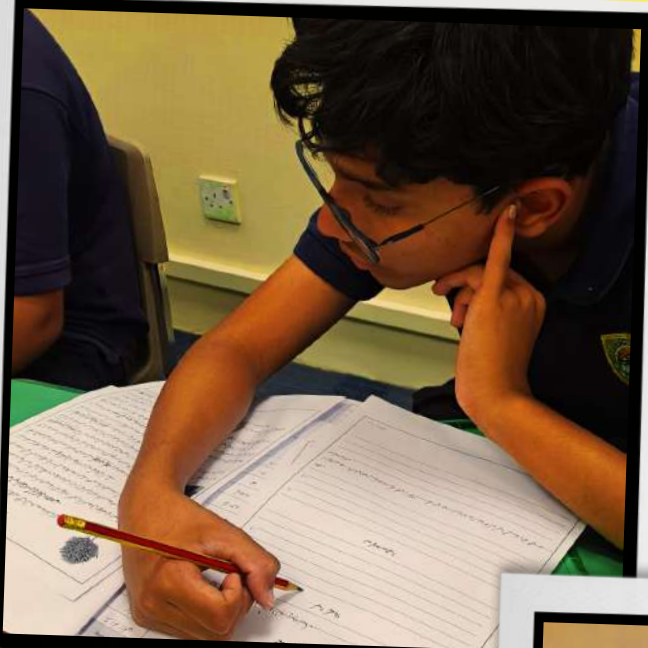

My final piece of wisdom, and it's an important one, is to care of yourself both physically and mentally. Since you probably won't have your parents look after you, you must look after yourself. Sign up to a gym or take walks every now and then. Don't stress too much about your grades. Try to cook for yourself. Do those and you will have a more enjoyable time at your university.

In conclusion, have fun right now at school and try not to regret a lot of things otherwise you won't look back on it very fondly. That's all from me. Don't forget to drink your water.

This Week In URDU AFL Strategy

Assessment for Learning:
"We must not equate assessment to testing. It is an ongoing process. It is indeed the way we do business, constantly monitoring student's development and the outcomes of our educational activity."

A glimpse from the Urdu classroom, through writing templates, English to Urdu worksheets, use of IT and traditional methods.

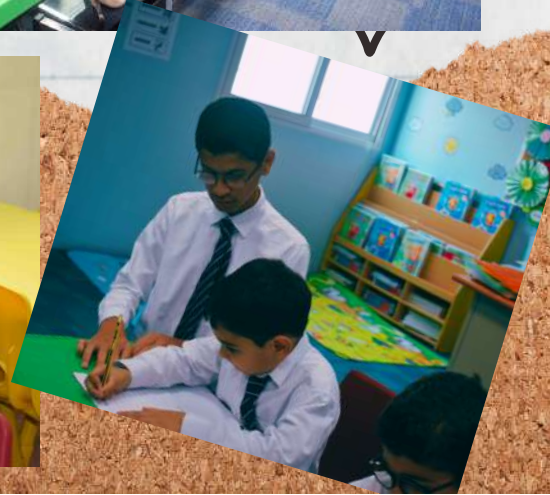

Community Service Program

At NIS, students of Grade 11 and 12 are involved in the Community Service Program. The purpose of this programme is to involve our senior students by helping within the NIS community alongside their academic studies. It also brings a positive effect on our senior students' personal and interpersonal development.

Through community service, our senior students engage with junior students by assisting them with one-to-one aid, giving them confidence and eventually leaving a lasting, positive impact on society at large.

The same energy, enthusiasm and improved level of confidence can be seen in our students which they showed in the beginning of the term.

To sharpen those brain muscles and become a master communicator, students in English classes are diving headfirst into the world of debating.

Debating is an essential life skill that helps children develop confidence, learn to think on their feet, and argue their point of view. It also teaches them how to research, structure an argument, and articulate their thoughts clearly.

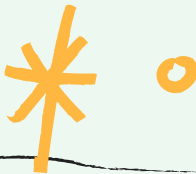

Debate topics

Grade 9:

Should students be allowed to bring their pets to school?

Grade 8:
Which is better,
homeschooling or going
to school?

Grade 6:
Should students be
allowed to use cellphones
in school?

Biology Class

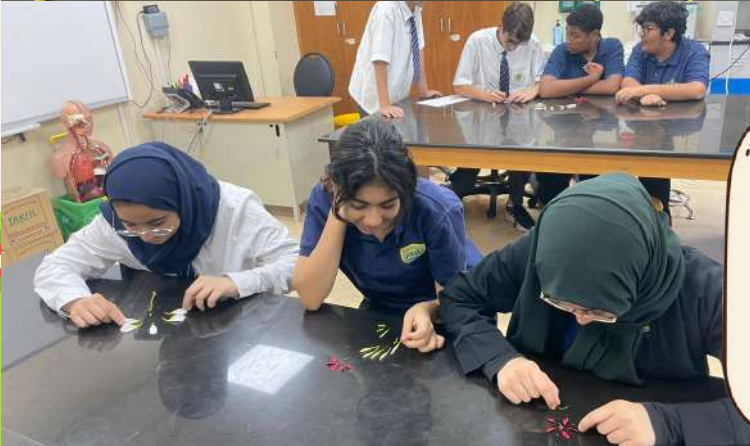

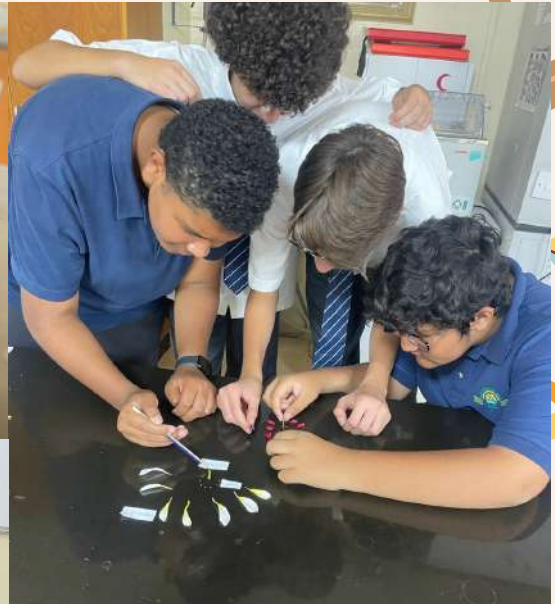

In Mr. Basheer's Biology Class, grade 12 students investigated the respiration in yeast cells.

They used a Redox indicator in their investigation, which changes color from blue to colorless when it gets oxidised.

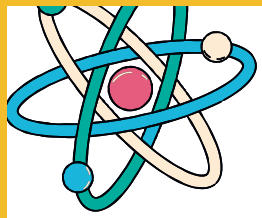

They selected a range of temperatures and measured the color change in a given period of time.

The results produced by them were beautiful, amazing, and self explanatory.

SCIENCE PROJECT

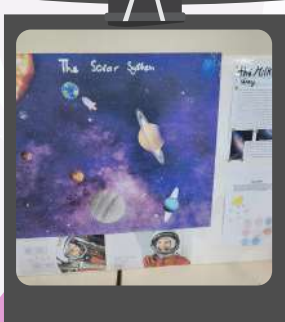

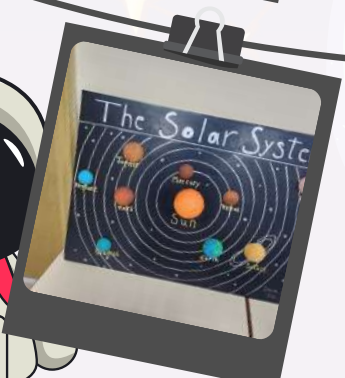

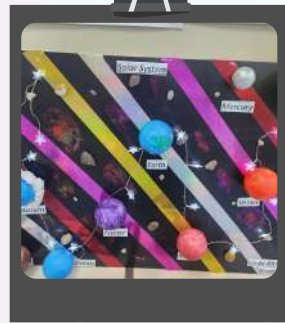

Grade 6 Boys

In Mrs. Khaoula's science class, students have been engaging in an exciting scientific project focused on investigating the distinctions between homogeneous and heterogeneous mixtures. This hands-on exploration has allowed our students to apply their scientific skills in a practical and meaningful way.

Space Week

At NIS, every year we invite experts from the KSA to our NIS Careers Event so they can guide our senior students in understanding the importance of different careers and have a better grasp on making career choices.

On 19th November, this event was accompanied by some professionals and guest speakers including Mr. Afnan Ahmed Chowdhury, IT Director - National Industrial Training Institute, Mr. Jacques Rouzaud, Manufacturing Director - Food Industry and Baha, Marketing Team from ASU Bahrain lead Ms. Ruqaya Mohsin, Director of marketing and public relations, Mr Abdulhameed Baqi, marketing and student recruitment office manager and Mr. Baha Karaimeh - Public Relations Office. These professionals along with their expertise and guidance imparted some information that will assist our senior students in making sound decisions about their own futures.

العصف الذهني هو عملية إبداعية تهدف إلى توليد أفكار جديدة وحلول مبتكرة للمشاكل والتحديات. يتضمن العصف الذهني جمع تصورات وحلول من الأفراد للتفكير بشكل غير تقليدي والتعاون معًا لإنتاج أفكار مبتكرة. فالعصف الذهني يعزز التفكير الإبداعي فهو يساعد في تطوير قدرات التفكير الإبداعي لدى الطلاب. من خلال تحفيزهم على التفكير خارج الصندوق وإثارة أفكار جديدة، يتعلم الطلاب كيفية ابتكار حلول جديدة للمشاكل إلى جانب تعزيز التعاون والتواصل. فالعصف الذهني يشجع على التعاون والتواصل بين الطلاب. باختصار، يُعدُّ العصف الذهني أداة قوية في المجال التعليمي، حيث يساهم في تطوير قدرات التفكير الإبداعي وحل المشكلات لدى الطلاب، بالإضافة إلى تحسين تجربة التعلم وتعزيز التعاون والتواصل بينهم.

استراتيجية تمثيل الأدوار للطلاب غير الناطقين باللغة العربية

يمنح أسلوب لعب الأدوار المعلمة طريقة مناسبة لعرض موقف معين والتفكير فيه كما تسمح المعلمة لطلابها أن يكونوا مسؤولين عن تعلمهم وتسهيل قيامهم بذلك. وبهذه الطريقة يكتسبون خبرة جيدة من خلال لعب الأدوار ويعرفون ما يلزم معرفته.

من خلال النشاط الصفّي قام الطلاب بتمثيل أدوار شخصيات الكتاب وعبر كل طالب عن الشخصية المحببة لديه وتحدث عنها بسلاسة

SPORTS UPDATES !

To make the relation stronger between students and teachers, a two day Cricket Match was held between both at NIS.

Scores: Students with 23 runs - all out
Techers 46 runs - knocked out 8 wickets for students. Well done Teachers!!!
Aahil with and Abderehman Adnan - Men of the match with 3 X 4s each
